## Soldering Control Unit

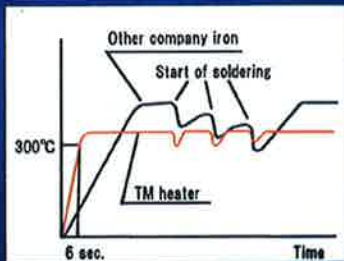

# APOLLO APOLLO SEIKO

# Luna

## The automation soldering unit for Lead free soldering

- **Touch panel**  
The touch panel input and display achieve user friendly programming and the operation.
- **Low cost**  
7 soldering parameters can be memorized with full function.
- **Side or Vertical install**  
Easy and flexible configuration, either side or vertical fixing.
- **Sleep mode setting**  
If Luna does not operate for more than a few minutes, it drops the iron temperature down automatically to avoid a tip oxidation.
- **DC power and the direct heating**  
The world wide recognition TM style iron unit guarantee minimum tact time and the best quality, soldering at lower temperature.

TM iron+RTC Temperature control

- **Geyan ZSB feeder (option)**  
Geyan ZSB solder wire allows cutting method prevents spattering of flux and solder ball.
- **Multipul voltage input**  
Multipul constant input power board is built-in for the constant heating.  
(AC85~264V)

SETTING THE INDUSTRY STANDARDS

# APOLLO SEIKO LTD.

# SPEC

<b>Model</b>	Luna
<b>Power</b>	AC85~264V 50/60Hz
<b>Supply air</b>	4~5Kg/cm2
<b>Solder wire</b>	φ0.4~1.6mm
<b>Solder parameter</b>	7 conditions
<b>Iron temperature</b>	0~500°C
<b>Heater capacity</b>	60W (90W:Option)
<b>Solder step</b>	10 steps
<b>Solder command</b>	8
<b>Sleep mode temp.</b>	250°C, (Setting interval is 1 - 60 minutes).
<b>Ex. operation box</b>	Available as option

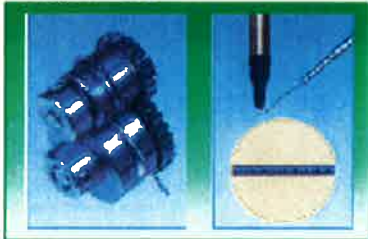

## Type

Luna - L SP +  +   
 or S SP + Iron unit type Solder diameter  
 or L CO +  
 or S CO +

L : Vertical display type    S : Side display type  
 SP : Solder feeder and the controller separate  
 CO : Solder feeder and the controller combined

## Options

Geyan ZSB

The built-in roulette blade cuts directly to the flux core while precisely feeding wire solder. We guarantee Zero Solder Ball along with high quality result.

STC-3000

Tip scraping cleaner

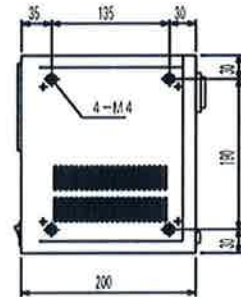

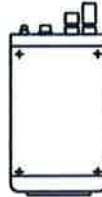

SRC-1000

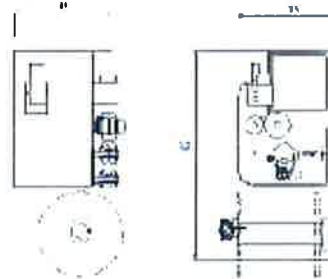

Wet sponge roller cleaner
